

Frequently Asked Questions

1. What are Mitoshi Tokens?

Mitoshi tokens are application coins that you can use to participate in the mitoshi cryptolotto platform. The team responsible for the project believes that cryptolotto is a viable and a profitable initiative given the strong growth of the industry and the demand for a fair, transparent and secure platform for doing lotteries.

Mitoshi tokens do not constitute ownership of the company. And should not be construed as securities.

2. How many Mitoshi tokens will be floated?

There will be 1,000,000,000 [One Billion] mitoshi tokens to be floated during the token sale. The reason for the massive size of the float is that we will be having a global marketing campaign to attract crypto investors and lotto players from all over the world with focus on Asia, some parts of North America and Europe.

3. Why so much tokens on float?

The executive team believes that because of the global appeal of lottery, we expect subscribers to come from anywhere across the globe. This will also be supported by the group's massive marketing campaign.

4. How will Mitoshi tokens be allocated?

The allocation of the tokens will be as follows:

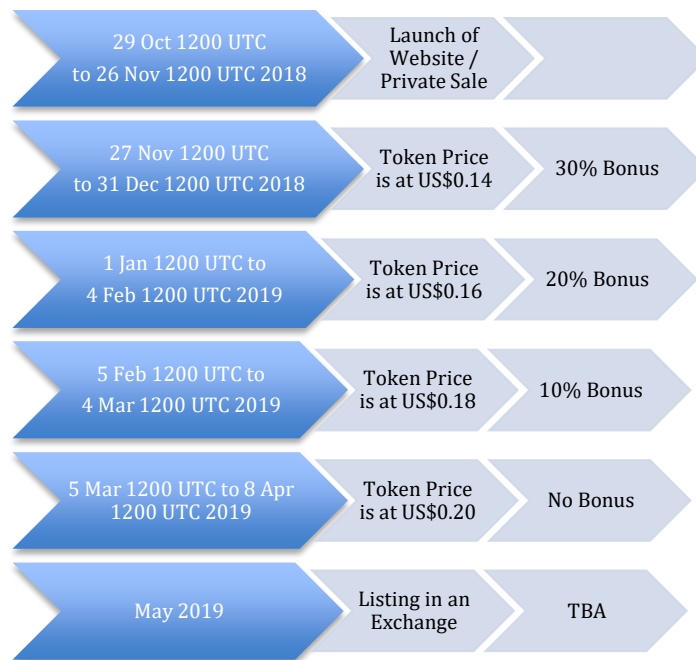

About fifteen percent [15%] are allocated to the team members of the project to compensate for the advances made to ensure the project. It also covers for their professional fees for services rendered during the duration of the project. The ten percent [10%] are allocated for advisor of the project for their expertise on the subject matter so as to lead the project in the right direction.

5. How much are the tokens priced?

The tokens will be priced differently during the various sales stages.

Sales Stages

6. How can I participate during the private sale?

Special terms and sales bounties can be offered during the private round. You can contact luckyyou@mitoshiworldwide.com.

7. How will the funds from the sale of the tokens be distributed?

Funds generated for each token sale will be distributed as follows:

About fifty percent [50%] of every token sale will be allocated to set up and fund the winnings for the draws in this project. This is way higher from the average of 35% from traditional lotteries.

8. What opportunities are there for me should I decide to subscribe to mitoshi tokens?

There are three ways to make money from mitoshi:

- When you participate in the token sale, you have an opportunity to purchase the tokens at discounted prices, and sell them higher upon listing in an exchange.
- When you play in the Mitoshi CryptoLotto Draws, you will have the opportunity to win in any of the draws
- When you refer, you get 10% when the person you referred also purchases tokens – instantly credited to your account

Mitoshi does not offer massive returns or windfall profits by doing nothing. When you own mitoshi tokens, you can roll over our investment through action by either holding, playing or referring.

9. How Do I subscribe to Mitoshi tokens?

To purchase Mitoshi tokens, you can go to www.mitoshi.io and click BUY TOKENS. You will be required to create and register an account. After an account has been created, you need to fund that account with either ETH, BTC or fiat currency in USD by transferring your intended amount in ETH, BTC or USD. Once these assets have been credited to your account, you can now start purchasing mitoshi tokens.

10. How much can I buy during the pre sale and ICO Periods? How much is the minimum?

There is no limit to how many mitoshi tokens you would like to purchase. However, the minimum required amount for purchase is 1 ETH or its equivalent in fiat [USD] or BTC.

11. What is the soft cap?

The soft cap is set at US\$10Million dollars. That amount includes setting up the fund for the jackpot prizes and reserve fund for future prizes.

12. What happens if you don't reach the softcap?

Depending on the reception of the market and forces that affect the token sale, the management of Mitoshi may have to extend the sale period to reach the softcap. Details will be announced if the need should arise.

13. What happens after the ICO?

Mitoshi tokens will be listed within one month after the end of the ICO, which is sometime May 2019.

14. What happens to unsold tokens?

Unsold tokens will be frozen for 365 days after the listing in an exchange. And will be available thereafter and be sold to investors. The prize of which will be dependent on the price at the exchange.

15. How does the referral program work?

Once you have a mitoshi wallet, you will be asked to invite contacts either in your social media or email accounts. A referral link will be provided. Should the referred party register and create an account, and buy tokens – you will automatically get a 10% referral fee credited to your account. The credit will be in MTS tokens.

16. What are your projections for token prices?

MTS will be priced at US\$0.20 or its equivalent in ETH or BTC. Preselling prices offer more discounts (you can refer to above sales stages). One [1] Mitoshi tokens allow you to participate in 1 lottery draw. The average price of lottery tickets are at about US\$2.50 to US\$3.00 and we see MTS tokens reaching that level in due time.

17. How are you going to promote Mitoshi CryptoLotto ICO Offering?

Mitoshi believes in seeking expert help and we have already commissioned the services of firms with a strong competence in community management, PR, social media and digital marketing. Our engagement with them will run for 5 months which includes the preselling, the ICO and the listing stages. After which and upon evaluation, will continue so with their services when we already commence the marketing the Mitoshi CryptoLotto platform and the draws.

18. Can we check and audit the smart contracts?

Yes, you can participate in our telegram groups and we will give you a link to audit and check the codes.

19. Are you planning of getting a gaming license?

Yes, we would like the games as credible and authentic and are now looking at our options to where to get those licenses from a friendly jurisdiction.

20. What are the challenges for this project?

- a. Jurisdictions where cryptocurrencies and ICO's are banned
- b. Our token is based on an Ethereum platform. If Ethereum as well as Bitcoin prices go down, we expect people to hold on to their cash and not participate.
- c. Acceptance of Cryptocurrencies
- d. It's a new technology and there will be a lot of convincing for people to trust the blockchain and smart contracts.
